

MULTIPLEXING CHASSIS MODULE

 REPAIR & REPLACEMENT

The Multiplexing Chassis Module is a vital interfacing module within the chassis' electrical infrastructure to ensure the safe operation of your vehicle on today's roads. Today's vehicles are more dependent on electrical systems than ever before, and a properly functioning electrical system is the backbone to the operation of any vehicle. The Multiplexing Chassis Module provides an essential interface within the vehicles electrical systems' architecture by connecting the Head Lamp, Tail Lamp, Forward Chassis, AMU, and Trailer Model Harnesses together. Detroit Reman™ combines years of experience along with OEM expertise to provide a high quality, thoroughly tested Multiplexing Chassis Module, which is developed to get you back on the road at a lower cost.

FEATURES AND BENEFITS

- Rigorous inspections of every component after complete disassembly and cleaning.
- Voltage tested to ensure proper readings at both elevated and reduced voltage levels.
- Current tested at each pin location to verify proper output and functionality.
- OEM components or OEM validated equivalents are used in the reassembly process.
- Functionally tested to ensure all Inputs & Outputs function as designed.
- Proudly Remanufactured in the USA and available at over 800 locations.

TOP MOVERS

| DETROIT REMAN P/N | DTNA P/N | DESCRIPTION |
|--------------------|---------------|---|
| DDR A66 19809 000R | A66-03087-000 | MULTIPLEXING CHASSIS MODULE, V4.21, HW2.A0,M2 |

DEMAND VALUE

Operational excellence is the cornerstone of the remanufacturing process, and Detroit™ Reman is the benchmark for the global remanufacturing industry. With state-of-the-art recovery technologies to restore products to OEM standards, Detroit™ Reman products are of the highest quality and provide a value-driven solution to lower your cost of ownership; giving you the value you demand.

PRODUCT LINES

- Accessory Drives
- Actuators
- Air Compressors
- Axles
- Bull Gears
- Camshafts
- Connecting Rods
- Cylinder Heads
- Diesel Exhaust Fluid (DEF) Pumps
- Diesel Particulate Filters (DPFs)
- Differentials
- Metering Units
- Engines
- Electronic Control Units (ECUs)
- Exhaust Gas Recirculation (EGR) Valves
- Fuel Injectors
- Fuel Pumps
- NOx Sensors
- Oil Pumps
- Overhaul Kits
- Rocker Arms
- Transmissions
- Turbochargers
- Variable Pressure Output Devices (VPODs)
- Water Pumps
