# ABOUT DETROIT REMAN

---

## PERFORMANCE, REMANUFACTURED

With beginnings in the 1960s, the remanufacturing experience and expertise acquired over half a century has made Detroit Reman an industry leader. Remanufactured Detroit Parts provide a cost-effective alternative to new parts, with the same performance, durability and reliability you trust from Detroit.

### OVER 50 YEARS OF EXPERIENCE

Over 50 years of remanufacturing experience and acquired expertise.

### STANDARDIZED PROCESSES

Standardized and documented processes which ensure our remanufactured components are built to last another lifecycle.

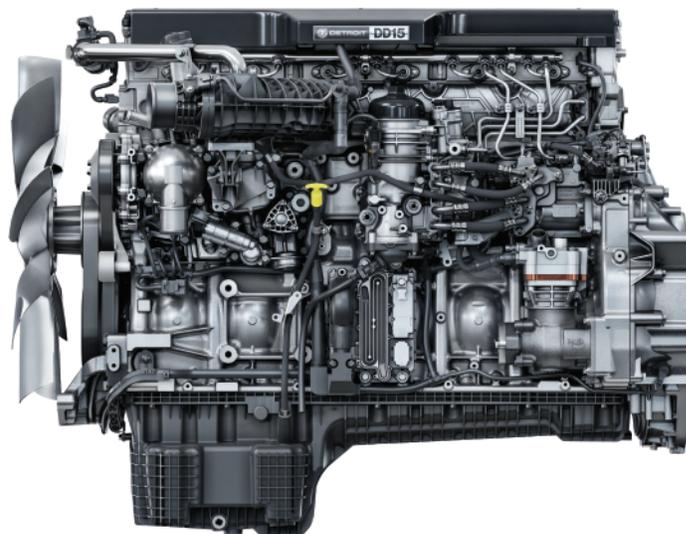

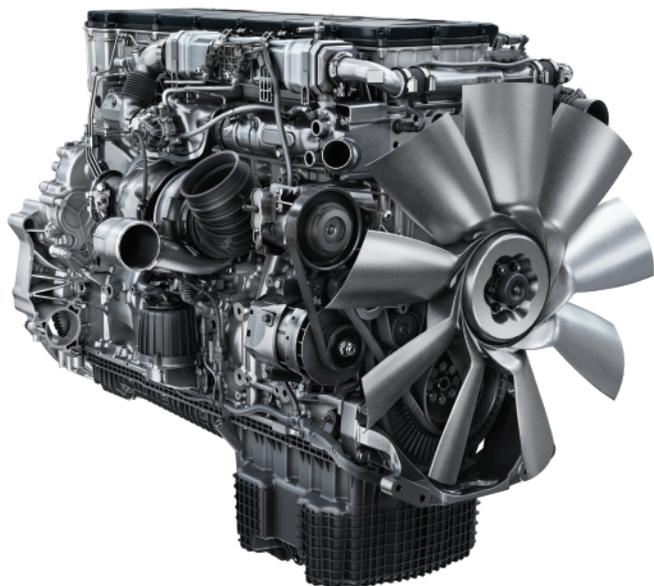

### SKILLED WORKFORCE

A workforce of over 1,200 associates skilled in restoring products back to like-new condition.

### DIVERSE PORTFOLIO

Diverse product portfolio including engine components and assemblies, transmissions, axles, diesel aftertreatment systems, and a wide range of electronics.

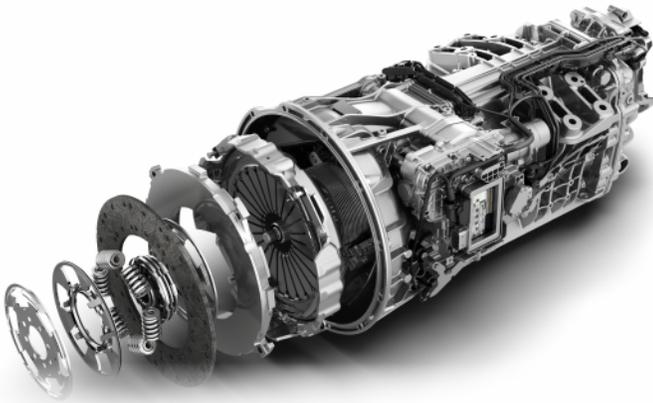

# THE DETROIT REMAN PROCESS

## 1 CORE RETURN

Used, failed, or returned parts (called “cores”) are returned to our core consolidation center, where they are carefully inspected and sorted. A steady supply of quality cores is essential for the remanufacturing process.

**ONLY HIGH-QUALITY  
CORES ARE USED**

## 2 DISASSEMBLY & INSPECTION

Each incoming core is fully disassembled, cleaned, and thoroughly inspected. Individual components are either reused or recovered, while worn or damaged parts are replaced with new ones.

## 3 REMANUFACTURING

Remanufactured parts follow the same process as new parts, ensuring equal or superior quality, functionality, and appearance. Any deviations are addressed through recovery operations, including additive material processes to build surfaces and dimensions.

**USES 100%  
DETROIT PARTS**

## 4 TESTING & VALIDATION

Remanufactured parts are qualified and tested to the same specifications as the new part to ensure they meet original performance, durability, emissions, and fuel economy standards. Precision measurement equipment is used to confirm that all parts meet the required tolerances and specifications.

**12-MONTH, UNLIMITED MILE WARRANTY**

# DETROIT REMAN PRODUCT OFFERINGS

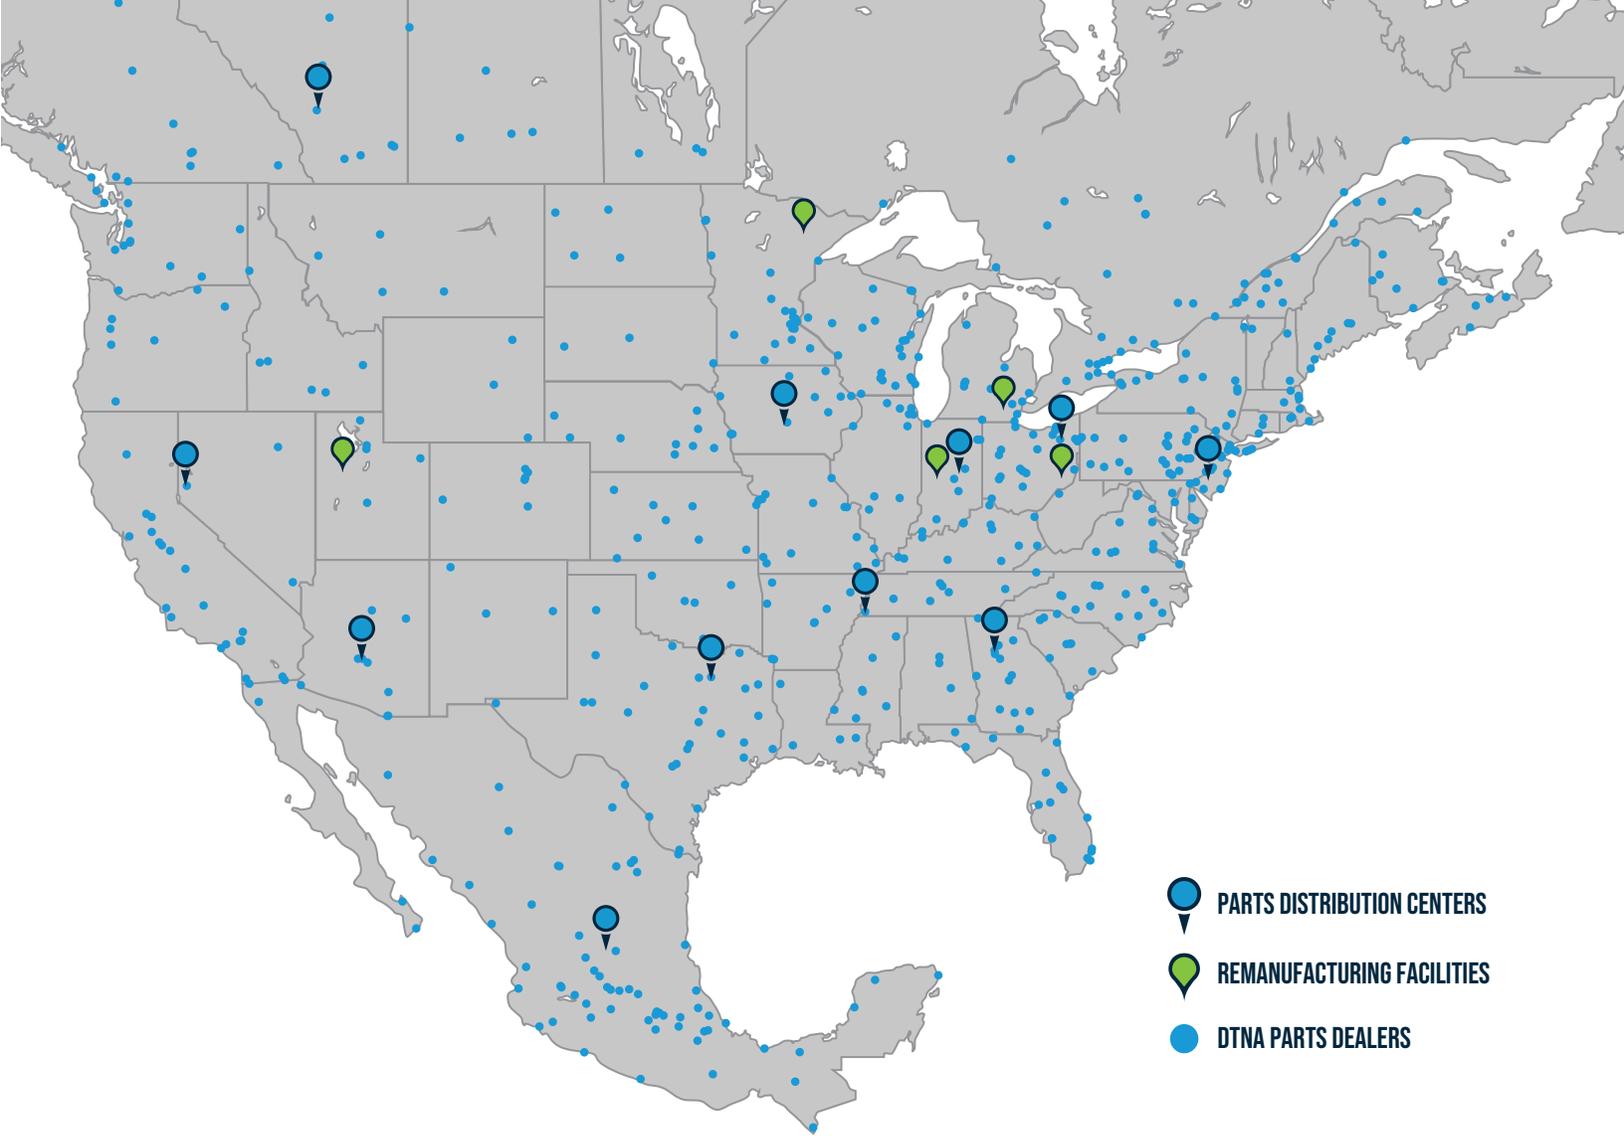

---

## DEMAND SUPERIOR REMANUFACTURED PARTS. DEMAND REMAN.

Detroit Reman offers a continually expanding product portfolio, which includes engines, transmissions, turbochargers, axles and cylinder heads, as well as electronics, air dryers, aftertreatment systems and fuel system products.

- **Axle Carriers:** Model 2 Carriers, Model 4 Single Carriers, Model 4, Tandem Carriers
- **Electronics:** CPCs, Electronic Control Modules, Instrument Clusters, Mechatronic Devices, Harnesses, Electronic Actuators, VPODs, SAM Chassis Modules (Signal-Detection and Acquisition), SAM Cab Modules, ABS Modules, Engine Control Units, Bulkhead Modules
- **Engines:** Complete,  $\frac{3}{4}$  and Long Block
- **Engine Components:** Rocker Arms, Cylinder Heads, Connecting Rods, Oil Pumps, Water Pumps, Air Compressors
- **Exhaust Aftertreatment:** Diesel Particulate Filters (DPF), DEF Pumps, DEF Metering Units, EGR Valves (Exhaust Gas Recirculation), NOx Sensors
- **Fuel Systems:** Injectors: HDEP, EUI, N3 and MUI, Unit Pumps: HDEP and EUP
- **Transmissions:** DT12 (Classic, CO2, CO2-DS, 2020), CPCAs, Shift Positioners, TCMs
- **Turbochargers:** Fixed and Variable Geometry (VG) and Non-VG Turbochargers

-  PARTS DISTRIBUTION CENTERS
-  REMANUFACTURING FACILITIES
-  DTNA PARTS DEALERS

# SUPPORT. WHERE AND WHEN **YOU NEED IT.**

## SPEEDY DELIVERY

With a network of more than 1,100 DTNA Parts locations across North America, you get parts fast, wherever you are.
