

DETROIT[™]
REMAN

Operational excellence is the cornerstone of the remanufacturing process, and Detroit[™] Reman is the benchmark for the global remanufacturing industry. With state-of-the-art recovery technologies to restore products to OEM standards, Detroit[™] Reman products are of the highest quality and provide a value-driven solution to lower your cost of ownership; giving you the value you demand.

DEMAND VALUE

SERIES 60[®] ENGINE SPOTLIGHT

○ ----- COMPLETE ENGINE

Complete engines remanufactured to the specifications of the original power unit, putting your customer back on the road with maximum confidence. This is the ultimate turn-key solution for engine repairs.

THREE QUARTER ENGINE ----- ○

Three Quarter engines offer more flexibility in the repair, while assuring your customer with OEM tested units that will provide service for the longhaul. Just add electronic controls, manifolds, fuel pumps and fuel lines to complete the job.

○ ----- LONG BLOCK PLUS

Our Long Block Plus has years of service under its belt for warranty repairs. We now offer these units for all repairs, giving you increased flexibility to offer customized repair options to your customers. Rocker arms, injectors and EGR cooler are added at the time of service.

LONG BLOCK BASIC ----- ○

Maximum repair flexibility is offered with a Long Block Basic. Components that are still in good shape from the takeout can be used to complete the repair. Units include the basics, all remanufactured and quality checked using OEM specifications: block, crankshaft, cylinder kits and cylinder head are all included.
