Connector Kits

Alliance Connector Kits are an affordable and flexible option to repair specific connectors within a harness instead of replacing the harness itself!

Product Highlights

Replacement

Connector Kits allow for replacement of a specific section instead of the entire harness

Assembly

Connector Kits are assembled to OE standards at an OE manufacturing facility

Testing

Tested to OE standards at an OE manufacturing facility

Materials

All materials used are that of OE standard, and used in OE harnesses

Quality

Connector Kits are produced with OE material, assembly and quality standards

Compatibility

Drop in OE replacement for specific connectors
