Delco Remy Heavy Duty Starters

Designed to start heavy duty and off-road vehicles in all conditions and environments, Delco Remy starters are engineered to perfection. Available proprietary features also protect the starter from system problems including over cranking, low battery capacity, voltage spikes, high-starting circuit resistance, or operator misuse.

Product Highlights

Complete coverage: A full portfolio for all truck classes, buses, off-highway vehicles and locomotives.

Reliable: Units available with Integrated Over Crank Protection (IOCP), a built-in circuit breaker that protects the starter from thermal damage.

Electrical soft-start: Consistently and accurately engages the pinion with the ring gear providing increased reliability.

Durable: Units available with patented Internal Magnetic Switch Solenoid (IMSS) that reduces corrosion and vibration issues while extending life.
