

ALLIANCE PARTS

Alliance Air Springs

The program offers premium air springs. Direct replacement of the OEM models, built from high quality materials using environment friendly manufacturing process.

Product Highlights

Easy replacement

The design of the top plates and bases is the same as the OEM which makes installation quick and easy.

High quality rubber

This allows perfect operation on different road conditions and in wide temperature range (-40F to 158F).

Last over 2,000,000 cycles

Our air springs are tested to last over 2,000,000 cycles.

Zinc-coated, not painted

The used metal parts are zinc-coated, not painted, which guarantees longer-lasting product.

Manufactured under Environment- friendly process, which produces less rubber waste.
