AirTek NXT for New Cascadia (https://www.hendrickson-intl.com/CMSPages/GetFile.aspx?guid=28c065f1-69fe-4d5f-ac84-ce7b9f5aed56)

Product Highlights

Aero Clad and AirTek Next

- Lightweight no negative effect to fuel efficiency
- Easy installation to factory mounts
- Durable, bright mirrored finish
- Finish 10 times thicker than chrome
- Resists corrosion
- Quality American made product
- Ground clearance 5.5 inches higher relative to OE Aero Package
- Resists cracking, pitting, peeling and fading
- Minor abrasions can be buffed
- Full 5-year limited warranty*

SteerTek NXT

Integrated Axle Seats

- -Improved ground clearance
- Reduce part count
- Simplify assembly

Ease of Maintenance

- The unique two-piece knuckle design eliminates the need to remove the kingpin to service the bushings
- Premium kingpin bushings and seals provide enhanced protection from the elements to improve bushing life

STEERTEK NXT comes with a standard 10-year, 1 million mile limited warranty*

Intraax

- Industry's only standard Cam Tube System enhances S-cam alignment and extends lifeQUIK-ALIGN® fast and easy axle realignment requires no welding or special tools
- Low spring rates deliver superb ride quality

General Product Information

AirTek® NXT

In the spirit of innovation, Hendrickson has developed the AIRTEK® NXT next generation air suspension system. AIRTEK NXT combines the STEERTEK NXT axle and air suspension technology with an advanced lightweight integrated clamp group design. Hendrickson's advanced air suspension technology assists in protecting drivers from road irregularities and hazards, providing a premium ride. The new design is 65 pounds lighter than standard content to improve load capacity and help enhance fuel efficiency on Freightliner's new Cascadia®

SteerTek NXT

Designed as the platform for both Hendrickson's next generation and OEM proprietary front suspension systems, STEERTEK NXT provides greater reliability, innovation, weight savings, and is a durable, lightweight alternative to traditional I-beam axles. STEERTEK NXT manages the increased brake torque loads required to meet recent changes to FMVSS-121 and will accommodate a variety of wheel end and knuckle designs, including global specifications. Chosen by many OEMs as the standard axle for select vehicle models, STEERTEK NXT is approved for on-highway and medium-duty trucks, buses and motorhome applications and is available in capacities up to 14,600 lbs.

Intraax®

The ultimate system for weight-conscious haulers running straight-frame platforms, container chassis, liquid tankers, grain hoppers, bottom dumps and livestock trailers. The INTRAAX AANT 23K boasts a capacity of 23,000 pounds in ride heights from 12 to 19 inches. The tapered beam design allowed us to trim more than 35 pounds from the suspension while still maintaining the smooth ride, superior performance and rugged durability you have come to expect from INTRAAX.

Hendrickson's exclusive ZMD® ZERO MAINTENANCE DAMPING® ride technology is now available as an option on select models.

Warranty Information

Hendrickson Auxiliary (TQL)

Freight prepaid on 10+ lift axles, mix and match orders all shipped to the same location.

Hendrickson Trailer Suspension (TSK)

All orders have \$30 freight charge.
