Optimized Friction Material

Optimized friction material formulation ensures consistent braking performance and minimizes wear

Noise Reduction

Haldex pads are engineered to reduce noise, vibration, and harshness (NVH) for a quieter and more comfortable braking experience

Environmental Sustainability

Haldex is committed to sustainability, and our OEM disc brake pads are designed with environmental considerations in mind, meeting N Level copper-free compliance

HDX 790-95396	Air Disc Brake Pad Kit, Copper Free	Full Axle Kit (4 pads)	ModulT	DBT22LT	GEN I
HDX 790-22031	Air Disc Brake Pad Kit, Copper Free	1 Wheel End (2 pads)	ModulX	DB22	GEN I

Product Information

Haldex's Genuine OEM air disc brake pads are designed and manufactured to meet the high standards of performance and reliability required in commercial vehicle braking systems. Our OEM pads are specifically engineered to provide consistent and reliable braking performance, ensuring safe and effective operation.

Key features of Haldex's Genuine OEM air disc brake pads:

- 1. **High-Quality Materials:** Made from high-quality friction materials designed to withstand the heat and pressure generated during the toughest braking conditions.
- 2. **Optimized Design:** Designed to provide optimal braking performance, including features of precise pad thickness and shape to ensure the best pad to rotor contact, resulting in even wear and consistent braking.
